Achieving Sustainable Solutions USA Protein Products & Local Agricultural Development

January 28, 2010
Hotel Avenida
Maputo, Mozambique

This conference will explore the benefits of USA protein products on local agricultural development; highlighting the nutrition and economic opportunities of utilizing USA protein products and ingredients to meet the immediate protein demands of local populations while building the market demand for locally grown agricultural products. Industry leaders, key decision makers, academia, and those involved in the value chain of high quality proteins will provide information on agribusiness approaches and sustainable responses.

Thursday, January 28, 2010
